SEARCH REQUEST FORM**Scientific and Technical Information Center**

Requester's Full Name: Lynne Anderson Examiner #: 78740 Date: 7/17/03
 Art Unit: 3761 Phone Number 305-5716 Serial Number: 094778687
 Mail Box and Bldg/Room Location: 3B24 Results Format Preferred (circle): PAPER DISK E-MAIL

If more than one search is submitted, please prioritize searches in order of need.

Please provide a detailed statement of the search topic, and describe as specifically as possible the subject matter to be searched. Include the elected species or structures, keywords, synonyms, acronyms, and registry numbers, and combine with the concept or utility of the invention. Define any terms that may have a special meaning. Give examples or relevant citations, authors, etc, if known. Please attach a copy of the cover sheet, pertinent claims, and abstract.

Title of Invention: Active Change Aid for External Articles

Inventors (please provide full names): Mark Kline, Donald Roe, Ann Sullivan

Earliest Priority Filing Date: 2/15/00

For Sequence Searches Only Please include all pertinent information (parent, child, divisional, or issued patent numbers) along with the appropriate serial number.

Magnet, air jet, or thermal cell capable of aiding in the application or removal of an article worn by a person (clothing, diaper, bandage, etc.)

STIC Search Results Feedback Form

EIC 3700

Questions about the scope or the results of the search? Contact **the EIC searcher or contact:**

John Sims, EIC 3700 Team Leader
308-4836, CP2-2C08

Voluntary Results Feedback Form

- *I am an examiner in Workgroup:* Example: 3730
- *Relevant prior art found, search results used as follows:*
- 102 rejection
 - 103 rejection
 - Cited as being of interest.
 - Helped examiner better understand the invention.
 - Helped examiner better understand the state of the art in their technology.

Types of relevant prior art found:

- Foreign Patent(s)
- Non-Patent Literature
(journal articles, conference proceedings, new product announcements etc.)

➤ *Relevant prior art not found:*

- Results verified the lack of relevant prior art (helped determine patentability).
- Results were not useful in determining patentability or understanding the invention.

Comments:

**... application of external articles e.g. diaper, comprises functional
element selected from group consisting of magnet , air jet and
thermal cell**

Inventor: KLINE M J ...

... ROE D C ...

... SULLIVAN A M

Abstract (Basic):

The aid consists of functional element (21) selected from a group consisting of **magnet**, an **air jet** and a **thermal cell**, which moves a portion of the diaper from one point to another point during application...

An absorbent article having a thermal cell actuator for adding or removing heat so that a useful function is performed upon it...

...Inventor: KLINE M J ...

... ROE D C

Abstract (Basic):

... A **thermal cell** actuator which performs a useful function on an absorbent article, such as changing the properties...

... previous topsheet joined to this, (c) an absorbent core intermediate to these, and (d) a **thermal cell** actuator that can add or remove heat from at least part of the product to...

...the article causes (d) to add or remove the heat. Also, a similar article whose **thermal cell** actuator is electrically powered...

Technology Focus:

... Preferred composition: the **thermal cell** actuator includes a material that performs an exothermic or endothermic reaction, e.g. disodium hydrogenphosphate...

TEXT:

...BeI-Art Products make your magnetic stirrer the most valuable piece of equipment in your **laboratory**. These one-of-a-kind devices allow your existing magnetic stirrer to produce a variety...

...the cost of purchasing dedicated equipment. You get the applications you need without breaking your **laboratory**'s budget. Spindrive Stirring **Accessories** fit directly onto existing **magnetic** stirrers and use the stirrer's own controls to affect shaking, rotation or rolling speed. Four Spindrive models are available to meet most **laboratory** needs. The Orbital Shaker Platform provides an orbital shaking diameter of approximately 0.9 inches...

...its already popular line of Spinbar Magnetic Stirring Bars. BeI-Art Products, a manufacturer of **laboratory** equipment, is located in Pequannock, New Jersey. For more information on other quality Scienceware products...
